DE JOUY

L'AUTHENTIQUE

*The Toiles de Jouy
displayed in the open air !*

*A world first, the Toile de Jouy interiors go on to conquer terraces,
parks and gardens.*

The result of a meeting of enthusiasts : Team Toiles de Jouy Authentique and an industrial fabrics specialist, « Exteriors » launches « The Four Parts of The World », one of the most popular historical engravings, printed on a weatherproof support, on display in the great outdoors !

This new creation is a real achievement, both technically and artistically. Printed on 100 % acrylic fabric (Tempotest® on a support suitable for both interiors and exteriors), tinted, weatherproof and resistant to UV rays, the canvas holds its colours* even in direct sunlight, on a veranda or behind windows, poolside or on the deck of a boat.

* Colours resistant to light and to temperatures of: 7 > 8 degrees
